

COLO SOLUTIONS EXECUTIVE MANAGEMENT TEAM

Scott Wilmont – President, Chief Executive Officer and Founder

Scott Wilmont is President, Chief Executive Officer, and Founder of Colo Solutions. Wilmont has over twenty years of experience in networking technologies, telecommunications, computer systems, and large network design/implementation/support.

Wilmont has been instrumental in the planning, technical design, and build-out of the Colo Solutions Internet data/colocation centers. His past eight years have been in roles of executive technical management with an emphasis on budgeting, P&L, network design, integration, and new technologies. Prior to his current position, Wilmont was cofounder, Vice President of Operations, and Chief Technical Officer of Colo Solutions for four years. He was previously President and founder of Internet Computer Support Services, a networking service and support company.

Before embarking on these entrepreneurial ventures, Wilmont worked with First Interstate Bank (now Wells Fargo Bank) where he was responsible for the management of a 4000-user multi-state Microsoft and Novell network with a budget of \$50 million; ENTEX Information Services (now a division of Siemens Information Services) where he was responsible for pre-sales technical support to Fortune 1000 companies and performed Total Cost of Ownership (TCO) studies; and Integrity Online where he was an integral technical resource in creating the first national filtered-ISP and held the position of President for the Florida operation.

Wilmont was among the first to install, troubleshoot, and support Novell Networks in 1988 and also among the first to achieve the prestigious Certified Novell Engineer (CNE, 1991). He also holds the following technical credits: Microsoft Certified Professional (MCP, 1996), Microsoft Certified Systems Engineer (MCSE, 1996), Compaq Accredited Systems Engineer (Compaq ASE, 1996), and field experience/training on systems by Cisco, Hewlett-Packard, IBM, Bay Networks (Nortel), and 3Com, as well as others.

Paula Uselis – Chief Operating Officer and Co-Owner

Paula Uselis joined Colo Solutions in 2002 as Chief Operating Officer and co-owner. She is responsible for public relations, marketing, sales, and financial operations. Uselis is also responsible for the day-to-day operations of the company, including contract management, human resources, and administrative operations.

Ms. Uselis brings over twenty-three years experience in marketing and product management, business development, corporate communications, and seven years experience in software engineering. Her experience comes from both initial company start-ups and large corporate environments in industries that include telecommunications, data communications, application software, medical operations and banking.

Prior to Colo Solutions, Mrs. Uselis founded Cornerstone Marketing in 1997, a full service marketing company focused on the marketing of high-tech companies and their products and services. In 1993, Uselis was Vice President of DSL Marketing and Operations for Westell Technologies (Nasdaq: WSTL), where she directed professionals in product management, product marketing, customer support, and corporate communications in the North American and International Markets. She also participated in taking the company public in November 1995.

Uselis' past experience includes GTE Telecom, where she served as Director of the network management project in the international office in Puerto Rico; AT&T Paradyne where she served as manager of product marketing for T1 Networking Multiplexers and CSUs, and IBM channel extension units and computer products. Uselis also held positions with Johnson and Johnson Home Health Care, GTE (now Verizon), Nations Bank (now Wachovia), and NCR. A graduate of Auburn University, she holds bachelors degrees in math, computer science, and education.
